

# 8 Core Principles *of* Response to Intervention

- I. We can effectively teach all children using Scientifically Based Reading Research
- II. Intervene early and strategically
- III. Use a multi-tier model of service delivery
- IV. Use a problem solving approach to make decisions within a multi-tier model
- V. Use research-based, scientifically validated intervention/instruction
- VI. Monitor student progress to inform instruction
- VII. Use data to make decisions
- VIII. Use assessment for screening, diagnostic and progress monitoring purposes

National Association of State Directors of Special Education, 2006
