SORTING BLENDS

sl

sm

sn

st

Small pictures: sled, sleep, slide, slippers, small, smart, smile, smoke, snail, snake, snow, snowman,
stamp, star, storm, stripe

This activity is from the "Cookie Sheet Challenge" Volume 5

You Will Need:

- Cookie Sheets (you may wish to paint the cookie sheets, but it is not necessary). The cookie sheets in this activity were purchased at Walmart (Mainstays— Small Cookie Sheet for .88)
- Magnets for the pictures (magnetic strips can be found in the craft section of Walmart or other similar stores). Another option is to purchase magnetic business card backing in bulk and cut into squares.

To Assemble Your Activities:

- Print the large pictures, small pictures on cardstock and the templates on office paper
- Cut the pictures/letters and stick a magnet on the back of each picture

Teaching Directions

Sorting Digraphs and Blends

Place a template on a cookie sheet. Provide the student with the appropriate pictures. A listing of the pictures is provided at the bottom of each template. Have the student place the pictures in the correct column. For students just learning blends and digraphs, you will likely need to provide prompting.
