Directions

To Assemble Your Activity:

- Print the activity. Laminate if desired
- Cut activity cards along the dotted lines
- Cut out each letter circle

Teaching Directions:

Provide each student with a ladybug card. Place the letter circles face down on the table. Tell the students that you will turn over a letter. If they have the picture that begins with that letter sound, they can place the circle over the picture. Play continues until a student covers all the pictures on his/her card.
